

# BRICE POTÉ

FULLSTACK PHP/SYMFONY SENIOR DEVELOPER & DEVOPS CI/CD — AI-AUGMENTED

Over 25 years of experience  
PHP/Symfony • DDD • API Platform • Expert Agile (SM/PO) • DevOps • Agents IA

## CONTACT

- +33 6 07 94 55 79
- brice.pote@clicsilver.com
- Achères (78) — IDF / Remote
- www.brice-pote.com
- linkedin.com/in/bricepote

## COMPÉTENCES CLÉS

### 1. Architecture & Développement

- PHP/Symfony, API Platform
- DDD Architecture, Clean Code, Design Patterns
- PHPUnit, SonarCloud
- Front : React, JavaScript, Twig
- SQL : Oracle, PostgreSQL, MySQL, SQL Server
- Cache : Redis, Memcached

### 2. DevOps & Infrastructure

- Docker (Expert prod multi-projets)
- Plateformes Git : GitLab, GitHub, BitBucket
- CI/CD Multi-Plateformes : GitLab CI, GitHub Actions, BitBucket Pipelines, Jenkins
- Monitoring : Prometheus, Grafana, Blackbox Exporter
- Infra : Traefik v3, Linux, Bash, PHP Deployer v7
- Stockage : MinIO (S3-compatible)
- Conteneurisation : 11+ services, réseaux isolés

### 3. AI & Automation

- Claude Code + CLAUDE.md (contexte IA par repo)
- Claude Projects, ChatGPT, Gemini
- Connecteurs MCP
- Workflows intelligents (n8n + Claude Haiku)
- Tests, docs et commits assistés par IA

### 4. Pilotage & Méthodologie

- Expert Agile (SM + PO + TD)
- Certified Scrum Master CSP-SM
- Product Owner certifié CSP-PO
- Team Developer certifié CSP-TD
- JIRA, Confluence, ServiceNow
- Reuves de code, conduite du changement
- Instructor: Docker, BCP/DRP, Web Attacks

## ÉVOLUTION DE STACK

2026

ArgoCD, AI Workflows, n8n

## PROFILE

Senior **PHP/Symfony Developer** with **over 25 years of experience** in software engineering, including over 20 years in the PHP ecosystem: **DDD** architecture design, **REST API** exposure with **API Platform**, and a rigorous testing culture — over **85%** coverage on recent projects.

This development expertise is backed by a **strong DevOps culture**: I containerise, deploy, monitor and industrialise my own deployments — over 5 years of hands-on practice (**Docker**, **GitLab CI**, **BitBucket Pipelines**, **GitHub Actions**, **Jenkins**). End-to-end autonomy — from commit to production — enabling me to operate across the full delivery chain without friction.

Beyond pure technology, my background in project management, Agile and digital leadership has given me a complementary dimension: I communicate effectively with all stakeholders, including at executive level, with a clear focus on ROI, results and client satisfaction. As comfortable proposing as delivering, I engage with the why as much as the how — and I ship.

**My edge since 2025**: I use **AI** as a daily quality accelerator. It expands my scope, compresses my development cycles and permanently guarantees a high level of quality — better algorithms, more exhaustive tests, rigorous documentation, structured commits, adherence to the highest code quality standards.

## PROFESSIONAL EXPERIENCE

### SENIOR SYMFONY DEVELOPER & DEVOPS ENGINEER

Since 2024

**Clic Silver (Digital Agency) — Freelance — IDF**

*Design, development and operation of 3 web projects in production, fully containerised with Docker: DevOps infrastructure, CI/CD pipelines, technical monitoring and API development.*

- **Clic Habitat**: property listings application in headless architecture (Symfony API + frontend)
- **Clic Boutique**: WordPress / WooCommerce e-commerce site
- **Clic Infrastructure**: independent infrastructure management

#### Architecture & DDD Development:

- **DDD** architecture on **PHP/Symfony**: 4 layers (Domain, Application, Infrastructure, UI), Value Objects, **Repository Pattern** with Domain → Doctrine Mappers
- **PHPUnit** tests and code quality continuously tracked via **SonarCloud**
- Complete authentication: Form Login, **Redis** Sessions, **2FA (TOTP)**, Rate Limiting, Audit Logs, account locking
- Hierarchical **RBAC** (SUPER\_ADMIN → USER), email verification, user profiles
- S3-compatible storage: **MinIO** — **API Platform** for service exposure

#### Infrastructure & DevOps:

- Multi-project **Docker** architecture: **11+ containerised services**, 3 isolated networks with dedicated subnets
- **Traefik v3** reverse proxy: automatic routing via labels, automated **SSL Let's Encrypt**
- CI/CD across **3 platforms**: **GitLab CI** (Clic Boutique), **BitBucket Pipelines** v6.5 (Clic Habitat, 3 envs), **GitHub Actions** (infra)
- Monitoring: **Prometheus** (6 jobs), **Grafana** (6 datasources), **Blackbox Exporter** (5 sites), Node Exporter, cAdvisor
- Containerised e-commerce stack (Nginx + MariaDB + Redis + PHP-FPM) — **PHP Deployer v7**
- Production databases: **PostgreSQL 16**, MariaDB, Redis — **Bash strict mode** scripts

#### AI-Augmented Development:

- **CLAUDE.md** files per repository — architecture, tests, scripts assisted by **Claude Code**
- Commit messages and systematic documentation AI-assisted

#### Automatisation & Workflows Intelligents :

- Pipeline de veille marché (**n8n**, 22 nœuds, 10 métiers, **Claude Haiku**, ~390 offres/run, 2x/jour)
- **Google Sheets as Code** : dashboard KPI via Apps Script (6 onglets)

**Stack** : PHP/Symfony, API Platform, PostgreSQL, MariaDB, Redis, MinIO S3, Docker, Traefik v3, Prometheus, Grafana, GitHub Actions, BitBucket Pipelines, GitLab CI, PHP Deployer v7, n8n, Claude Code

### DÉVELOPPEUR FULL STACK SYMFONY / ENV. DMZR (IBM CLOUD)

Juin 2023 → présent

**BNP Paribas (BP2I) — Paris**

*MCO de 2 applications métiers de gestion de l'obsolescence au sein d'une équipe Agile, dans un environnement Kubernetes, ArgoCD et Jenkins.*

- Développement backend **Symfony 5.4/6.4 / PHP 7-8**, interfaces web Twig/HTML5/Bootstrap 4/CSS3
- **Kubernetes** dans la **dMZR (Cloud IBM)** — **ArgoCD** pour déploiement non-prod via pipeline **Jenkins**
- Culture **Cybersécurité/DevSecOps** : scans d'images Docker, détection de vulnérabilités, surveillance obsolescence
- Outils : **GitLab**, Jenkins, **ServiceNow**, **JIRA**, Confluence

**Stack** : PHP 7-8, Symfony 5.4/6.4, Kubernetes, ArgoCD, Jenkins, Docker, Oracle 12-14, PostgreSQL 14, GitLab, ServiceNow

2025

Symfony 7.4, DDD, Docker, Traefik, Prometheus/Grafana, Claude Code

2020

Symfony 5, Docker Compose, GitLab CI/CD, API Platform, Kubernetes

2017

Oracle PL/SQL, ETL Talend

2015

Symfony 2/3, Jenkins, MySQL, jQuery

2005

PHP 5, Zend Framework, SVN, Apache

1998

Java, Oracle 8, Forms 6, VBA, HTML 4

## CERTIFICATIONS

- Scrum Master (CSP-SM) — ISL — 2023
- Product Owner (CSP-PO) — ISL — 2023
- Team Developer (CSP-TD) — ISL — 2023

## LANGUES

- Français (Maternelle)
- Anglais (Professionnel)
- Allemand (Notions)

## CENTRES D'INTÉRÊT

- Running (Marathon New York 2014)
- AI & Autonomous Agents
- Cloud & DevOps
- Aéronautique

**SYMFONY DEVELOPER / SCRUM MASTER / DOCKER DEVOPS**

Feb 2022 → May 2023

**Diot Siaci — Freelance — Paris**

*Triple casquette : Développeur PHP Symfony/API Platform, Scrum Master, DevOps Docker.*

▶ **PHP 8 / Symfony 5.4 / API Platform 2** — Stack **Docker 12 containers** multi-applications

▶ **Scrum Master** : animation des cérémonies — **GitLab CI/CD**, PHPUnit, revues de code

Stack : PHP 8, Symfony 5.4, API Platform 2, Docker (12 containers), GitLab CI/CD, PostgreSQL

**MISSION D'EXPERTISE — TRAITEMENT DE DONNÉES**

Jan → Fév 2022

**Splio — Freelance — Paris**

▶ Imports et traitement de très gros volumes de données via **PHP Symfony** et **DBAL Doctrine**

▶ Refactorisation du code et **optimisation des performances** Doctrine/PostgreSQL

Stack : PHP 7.3, Symfony 3.4, PostgreSQL 9.4, Docker Compose

**SYMFONY DEVELOPER — MULTI-VERSION APPLICATIONS**

Apr → Oct 2021

**Ministry of Justice — Freelance — On-site / Remote**

▶ Web applications for Ministry business units (Public Prosecutor, Prisons, **Counter-terrorism**) — **Defence clearance**

▶ **Symfony 3.4** → **Flex 4.4** migration — **GitLab self-hosted**

Stack : PHP 7.3, Symfony 2.8/3.4/4.4, PostgreSQL, GitLab self-hosted, Docker

**DEVOPS CI/CD ENGINEER / PROJECT MANAGER**

Jan → Aug 2021

**Yambo — Freelance — Full Remote**

▶ **Project management**: senior dev steering (**DDD**), external hosting provider coordination

▶ CI/CD: **BitBucket Pipelines**, **AWS CodePipeline**, **Jenkins**, **GitLab CI** — **Linux Debian** admin

Stack : Docker, BitBucket, Jenkins, GitLab, AWS, Symfony 5, PHP 8, MySQL 8, Linux Debian

**SYMFONY DEVELOPER — CLI & DATA QUALITY APPLICATIONS**

Jan → Mar 2021

**Dataneo — Freelance — On-site / Remote**

▶ **Data enrichment** and **Data Quality** — **Chain of Responsibility** design pattern

Stack : Symfony 5, PHP 5.6/7.4, Elasticsearch 2, PostgreSQL 10, Linux Debian

**ETL TALEND / PHP ZEND DEVELOPER — GDPR & MAINTENANCE**

Jul → Dec 2020

**BNP Paribas (BDDF) — Freelance — Montreuil**

▶ **ETL Talend** jobs: **GDPR** purges and archiving — customer data extracts for **internal audits**

▶ Internal application maintenance (PHP 5.4 / **Zend Framework**) — **Talend Open Studio 6.5**

Stack : Talend ETL, PHP 5.4, Zend Framework, Oracle, SVN

**SYMFONY / LARAVEL / REACT DEVELOPER — HIGH TRAFFIC — MICROSERVICES**

Apr → Jul 2020

**Adkomo — Freelance — Full Remote**

▶ High-traffic **SaaS** application — **microservices** API (**API Platform**) — **React JS 16** — **AWS/S3**

Stack : PHP 7.4, Symfony 5, Laravel 5, API Platform, React JS 16, PostgreSQL (JSONB), AWS S3

**SCRUM MASTER / SYMFONY DEVELOPER / ETL TALEND DESIGNER** Dec 2017 → Oct 2019

**CNAS — Permanent — Montigny-le-Bretonneux**

▶ **Technical TMA Project Manager / Scrum Master** — **ETL Talend: Oracle PL/SQL** job migration

▶ **Symfony 4** / PHP 7.2 / native PHP 7 / Oracle PL/SQL — **Jenkins CI/CD**, GitLab, Linux admin

▶ Agile implementation: **JIRA** applied to Agile practices

Stack : Talend ETL, PHP 7.2, Symfony 4, Oracle PL/SQL, Jenkins, GitLab, JIRA, Linux Debian

**LEAD PHP DEVELOPER THEN DIGITAL DIRECTOR**

Aug 2009 → Nov 2016

**Paris Inn Group — Permanent — Paris**

*Two phases within a hotel group:*

**Phase 1 — Lead Developer (2009-2013, ~4 years):**

▶ PHP 5 / Zend Framework / Magento 1.9 — proprietary CMS, web site industrialisation

▶ Business CRM from scratch: database reverse engineering, customer data extraction, pre/post stay emails, campaign targeting

▶ Data Warehouse/Datamarts (CRM, Yield Management, Web) — Linux server admin, BCP/DRP

**Phase 2 — Digital Director (2013-2016, ~3 years):**

▶ Head of digital business unit, reporting to CEO — Team: dev, CRM manager, SEO/SEA, community manager, designers

▶ Result: direct revenue share from 7% to +10% (bypassing OTAs) via digital marketing, SEO, UX/UI

**Earlier Career (2001 → 2009)**

▶ **Lucas and Lucas** (2006-2009, Lyon) — Project Manager / PHP 5 / Zend / Magento 1 developer. B2B/B2C large-account projects.

▶ **Kourosivo** (2004-2006, Lyon) — Lead PHP/ASP Developer. Major-account catalogues (Manpower, Arval, BNP).

▶ **Sage** (2001-2004, Lyon) — Forms 6i / Oracle PL/SQL Developer. Unix AIX/SCO. SQL foundations.

## EDUCATION & TEACHING

---

### **MIAGE — Master's in Computer Science Applied to Business Management (1st year)**

Université Claude Bernard Lyon I

### **DUT Computer Science — Software Engineering specialisation**

Université Claude Bernard Lyon I

### **Scrum Master (CSP-SM) / Product Owner (CSP-PO) / Team Developer (CSP-TD)**

International Scrum League — 2023

### **Instructor at engineering schools and training centres**

Docker — GitLab CI/CD — BitBucket Pipelines
